

How does your childhood compare to the climate of today?

Jeypore got hotter while you grew up.

An average November is now 1.6°C warmer than during 1967–1971.

Your orbit

Jeypore, year by year.

A line chart wrapped round — each point is one year, distance from centre is how much it rained.

Rain

Downpours are stacking up.

Jeypore now averages about 3.8 days per year with 50mm+ rain — up from 2.6 during 1967–1971. Same calendar, harder hits.

Rainfall memory

Wet and dry years in Jeypore.

You lived through 57 rainy seasons there since 1969, 49% of those years were wetter than your own median — your soggiest was 2010 (2,062 mm), your driest 1993.

You've lived through 10 record-hot years.

Top 10 at each home since 1940 · taller shading = hotter peak
Other India peaks use ERA5 grid cells (~25 km) until station history is loaded.

Jeypore — 10/57 in top 10

India's carbon emissions across your lifetime

National CO₂ emissions from 1969 to 2024 by fuel and industry source. In your birth year (1969), India emitted 177.4 Mt of CO₂, which has since grown to 3,193.5 Mt today (18× higher).

In 2024, when you were age 55, global CO₂ was 424 ppm. India emitted 3,193.5 Mt of CO₂. This is 18.0× the emissions level of your birth year (177.4 Mt, when global CO₂ was 324.6 ppm; today it is 427.4 ppm).

Interpretation: The diamond shapes your timeline from birth (bottom matchstick head) to today (top vertex). The organic stacked plume represents CO₂ emissions contributions by source: Coal, Oil, Cement, Gas, and Flaring, which expand like smoke as emissions grow.

What the numbers mean

Your climate story, interpreted.

Numbers alone don't tell the story. Here's what changed across three generations in Jeypore.

THREE-GENERATION TEMPERATURE ARC · JEYPORE

YOUR PARENTS' CHILDHOOD

1942–1946

26.7°C

annual mean

Hottest: May · 30.5°

YOUR CHILDHOOD

1967–1971

26.9°C

Hottest: May · 31.2°

TODAY

2021–2025

27.8°C

annual mean

Hottest: Apr · 31.3°

Across 81 years, Jeypore warmed by +1.15°C on average — from your parents' era to today.

ATMOSPHERIC CO₂

Since 1969

Then 324.6 ppm → Now 427.4 ppm

+102.8 ppm

The last time CO₂ was this high, humans didn't exist.

SEA LEVEL RISE

Since 1969

Then 0 mm → Now +21 mm

+21 mm

Small numbers, compounding consequences.

As prescribed by your climate pandit

Your upaay.

Every kundli comes with remedies. These have been computed from your personal climate data and endorsed by the relevant deities.

1 AGNI DEV

96.4% guaranteed

The problem: November is now 1.6°C hotter than when you were born.

Drink your chai at 62°C — exactly 8°C cooler than a proper cup. Every day. For life. It will taste wrong. That is the point. Agni Dev has determined that a 1.6°C warmer world earns a 8°C cooler cup. A thermometer will be required. Guessing is not permitted.

2 VISHWAKARMA

% guaranteed

The problem: Your per-capita share of India's CO₂ since you were born: ~44 tonnes.

To offset this, you would need to forgo 6.3M AI queries — or stop using AI entirely for 1,722 years. This prescription is self-aware. We recommend beginning immediately. The deity of technology has already noted the irony.

3 VARUNA DEV

100% guaranteed

The problem: Sea levels rose 21mm since you were born.

Drink 2 fewer glasses of water per week. It will not help, but the gesture is spiritually significant. Additionally, place 1 ice cube in the ocean annually. Do this at dawn. Do not explain yourself to bystanders.

4 ARANYANI

Ask your elders guaranteed

The problem: You have survived 10 of the hottest years on record since 1940.

Perform Vriksha Vivah with 4 trees. This classical practice—adapted here for climate dosh—requires formal betrothal to 4 living trees. Budget approximately ₹16,800 for the ceremonies. The trees cannot object. They also cannot water themselves. This is now your responsibility.

5 PITRU DEV

Generationally certified guaranteed

The problem: Temperatures rose 1.2°C from your parents' childhood to today.

Fan your parents for 46 minutes daily as generational reparation. Hand-held palm-leaf fan only — electricity would defeat the purpose and insult Pitru Dev. Your parents may protest. This is between you and the ancestors now.

* These remedies are satirical and scientifically non-binding. Your actual carbon footprint requires less theatrical and more structural intervention.
