

How does your childhood compare to the climate of today?

New Delhi bucked the trend.

An average January now runs 2.0°C cooler than during 1986–1990.

Your climate trail

The air got warmer year by year.

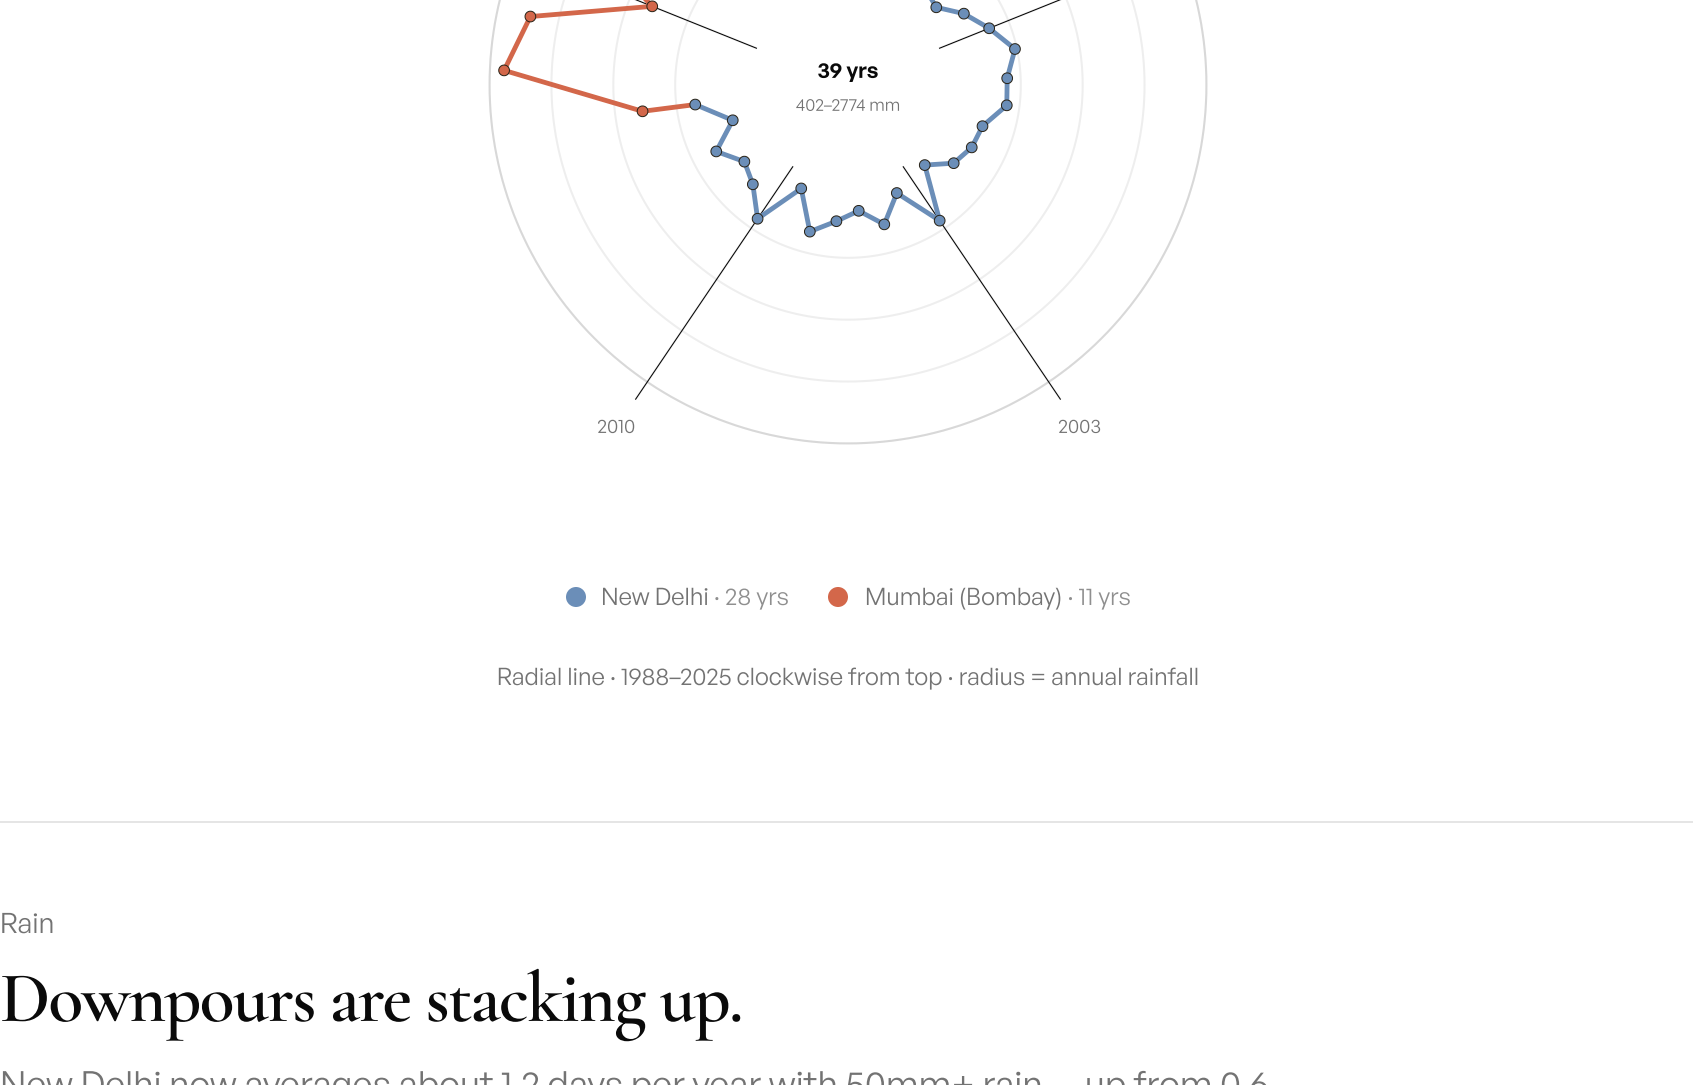

Across 38 years in 2 cities, annual mean temperature rose 2.2°C from 1988 to 2025 — your warmest year so far was 2025.

Your orbit

One line, every home you have known.

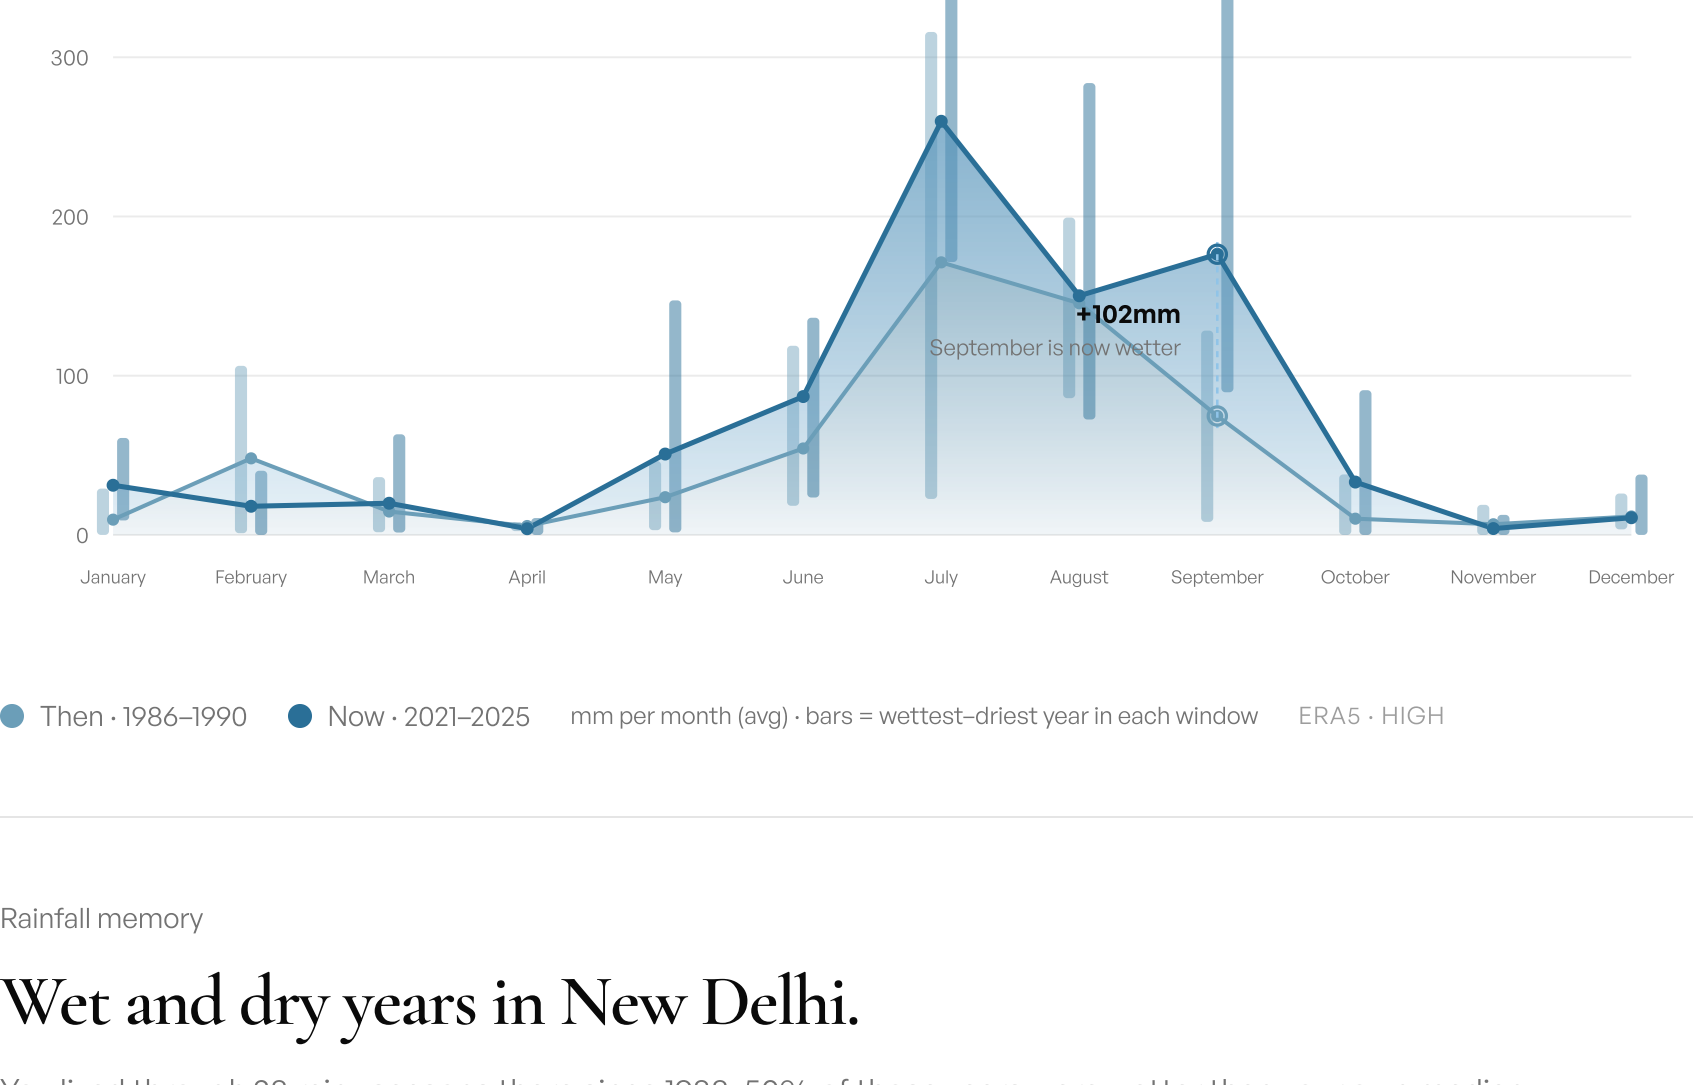

Years stitched clockwise from birth. Wettest: 2020 in Mumbai (Bombay) (2,774 mm). Driest: 2002 (402 mm).

Rain

Downpours are stacking up.

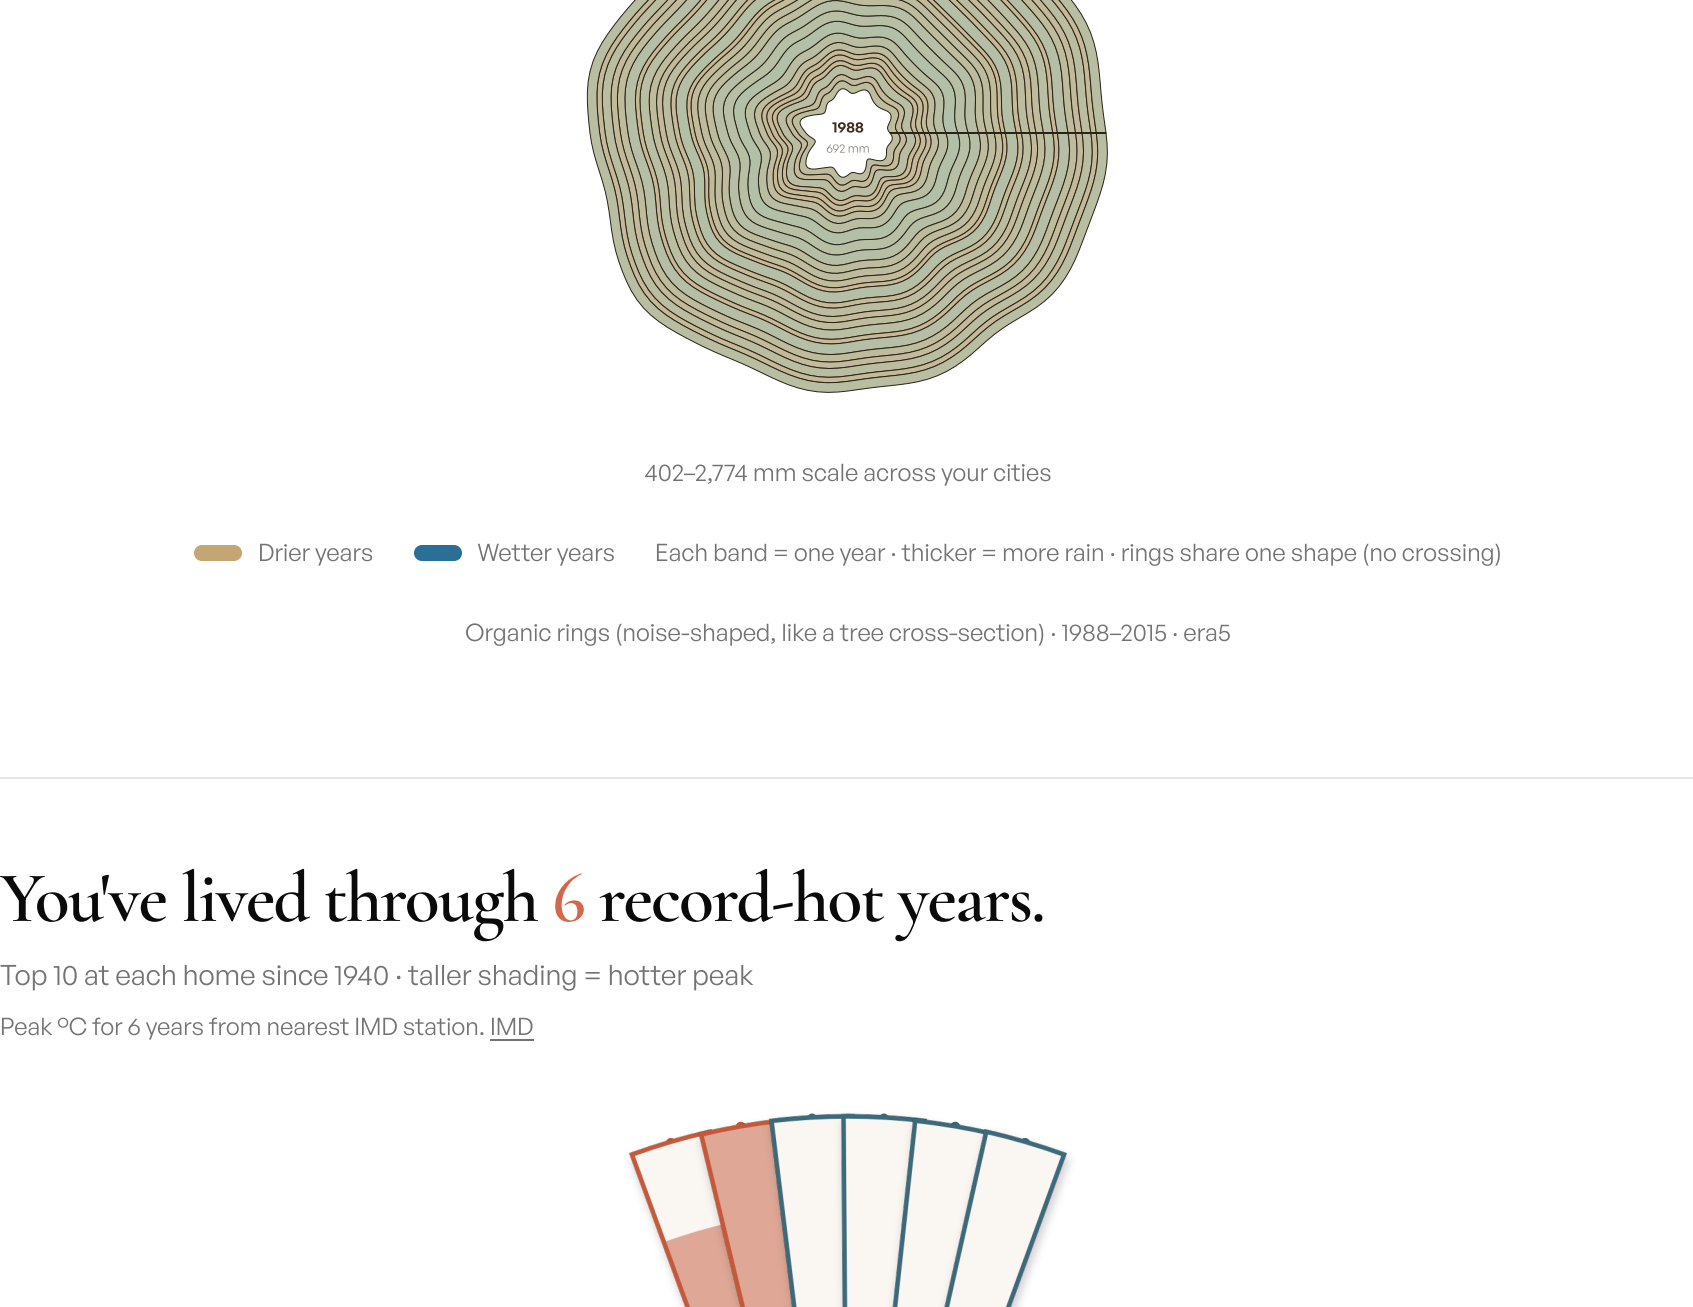

New Delhi now averages about 1.2 days per year with 50mm+ rain — up from 0.6 during 1986–1990. Same calendar, harder hits.

Rainfall memory

Wet and dry years in New Delhi.

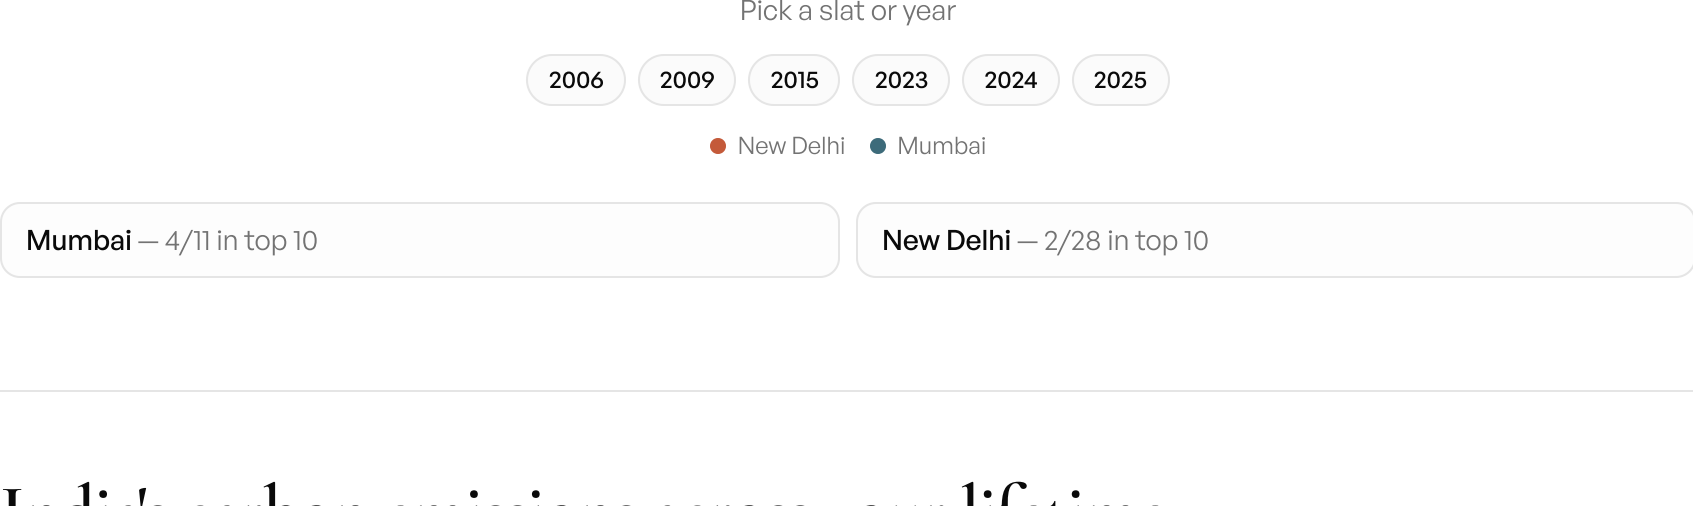

You lived through 28 rainy seasons there since 1988. 50% of those years were wetter than your own median — your soggiest was 1996 (976 mm), your driest 2002.

You've lived through 6 record-hot years.

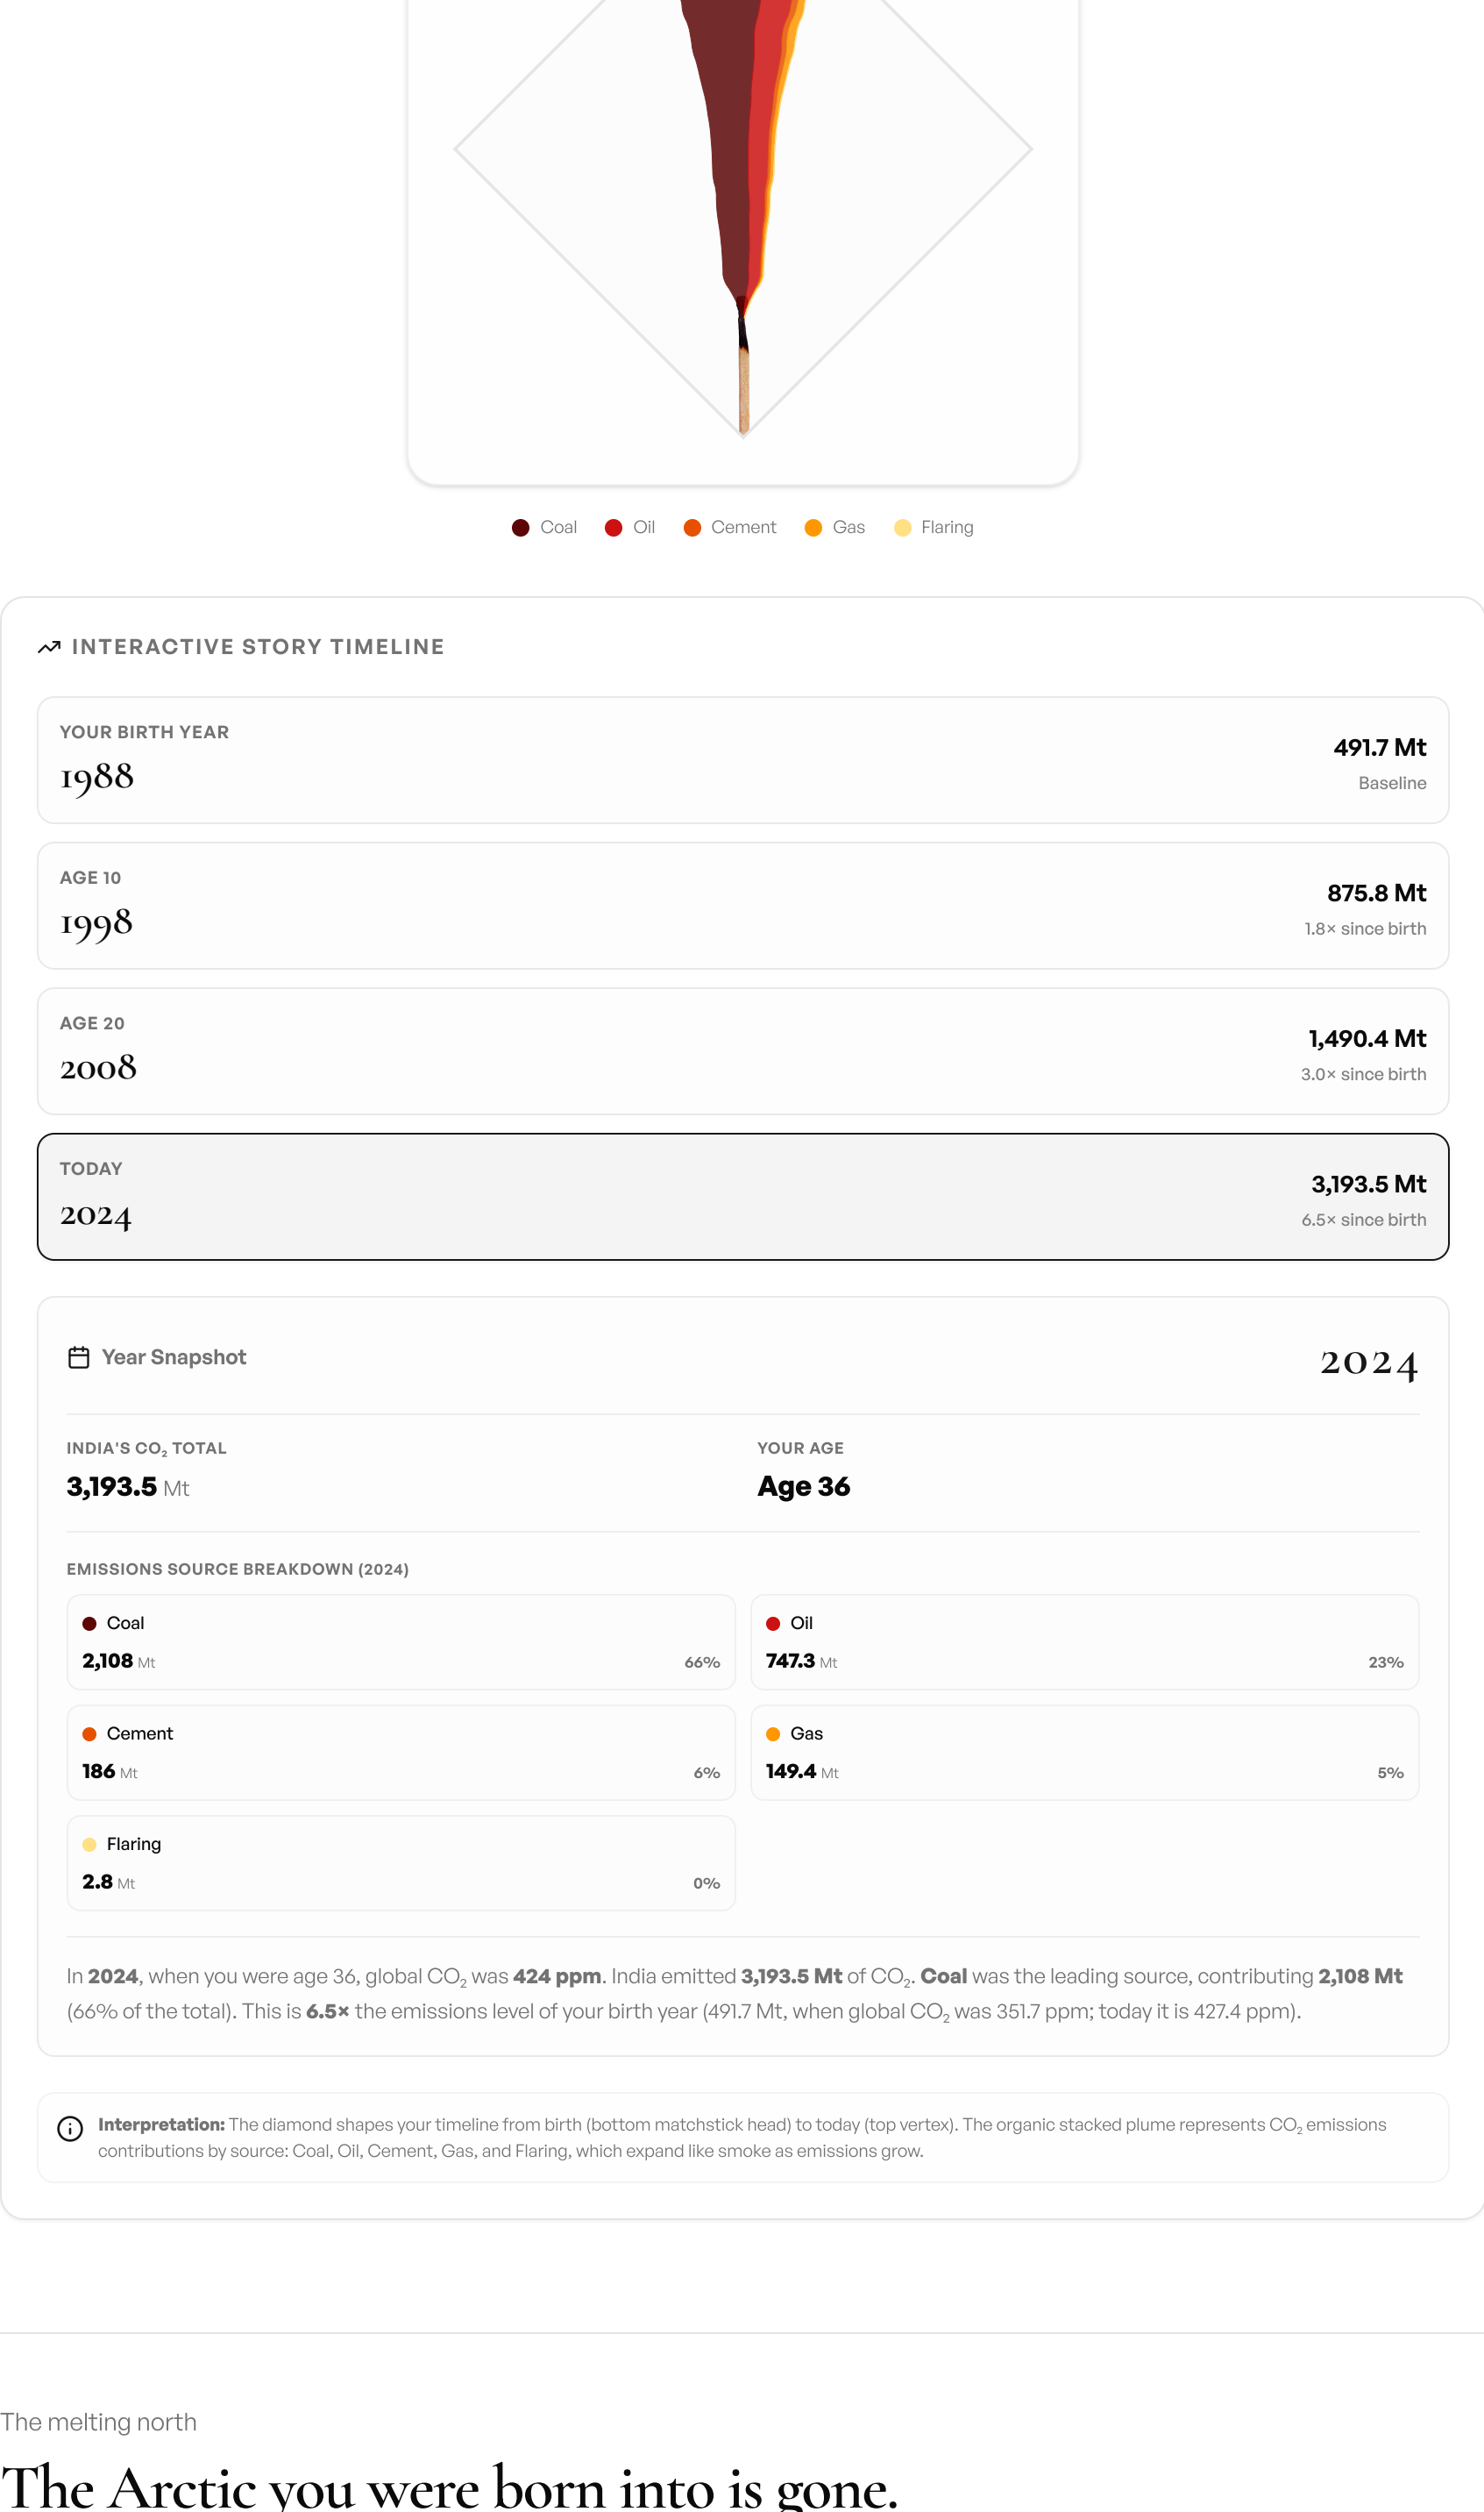

Top 10 at each home since 1940 · taller shading = hotter peak
